Qatar Boat Show is very close to our heart. The second biggest dynamic boating market in the region is the Qatari market. Showing here is an honor for us and comes at the right time of the year to present our new products to Qatar marketing. We always aim to bring new models, including the Nomad 101 this year. We look forward to the maturing of this event because Qatar deserves its own boat show, and we will continue to return to the Qatar market.

Qatar Boat Show is a beautiful destination. Interacting with the local community is magic because they are lovely people that have a genuine interest in what we make and you can definitely see that there's a lot of passion for yachting. We see this as a part of a collective investment in the region.
